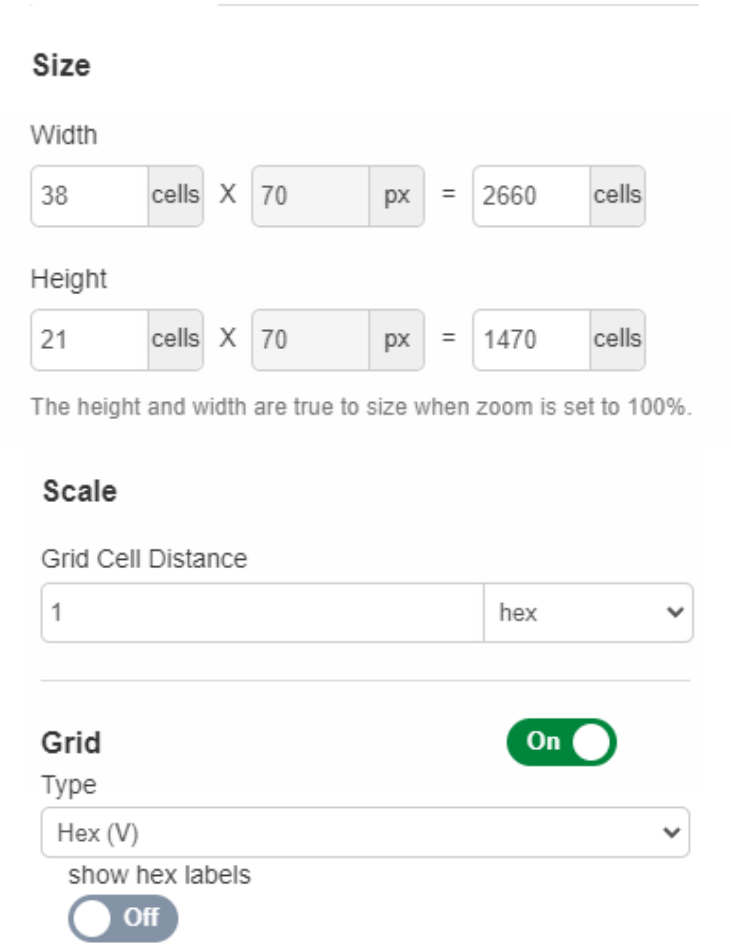
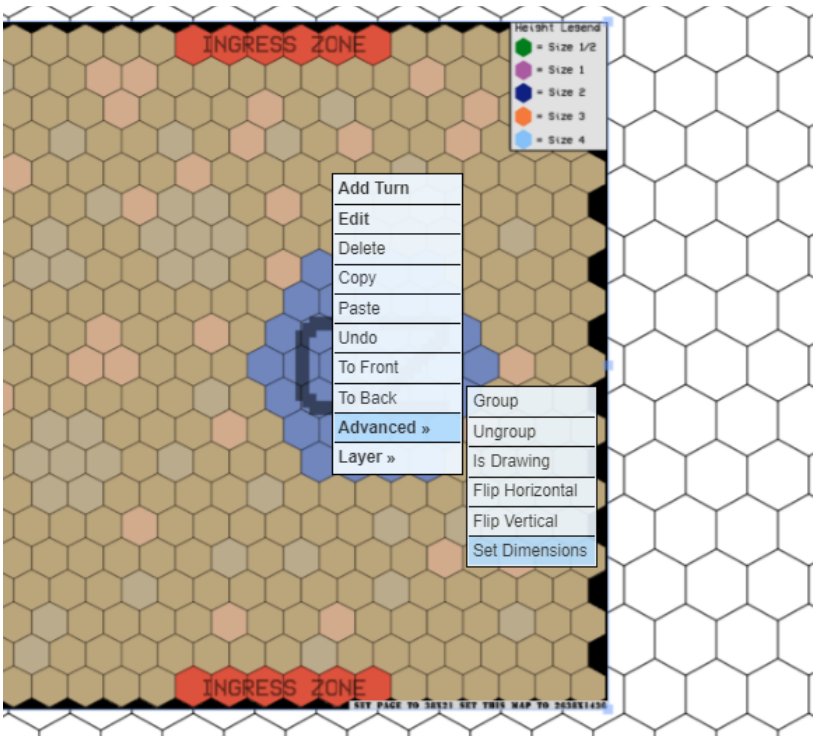
MAP SETUP

STEP 1: Create a new page in Roll 20.

STEP 2: Adjust its size and Scale according to the pictures below. 38 cells wide, 21 cells high. Vertical Hexes.

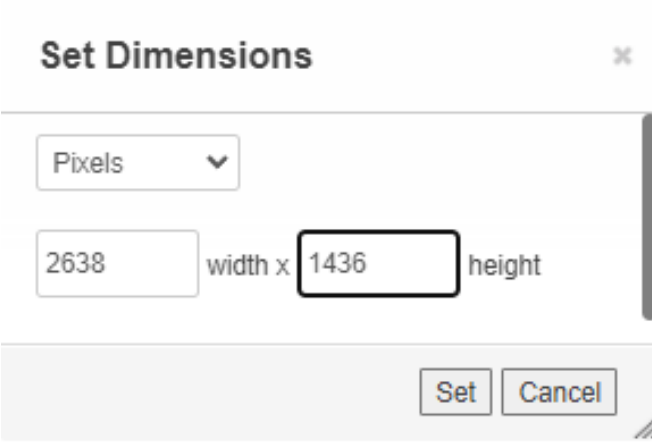


STEP 3: Upload the Map to Roll 20 and right click it after putting it on the Map layer. Select “Advanced” and “Set Dimensions”.

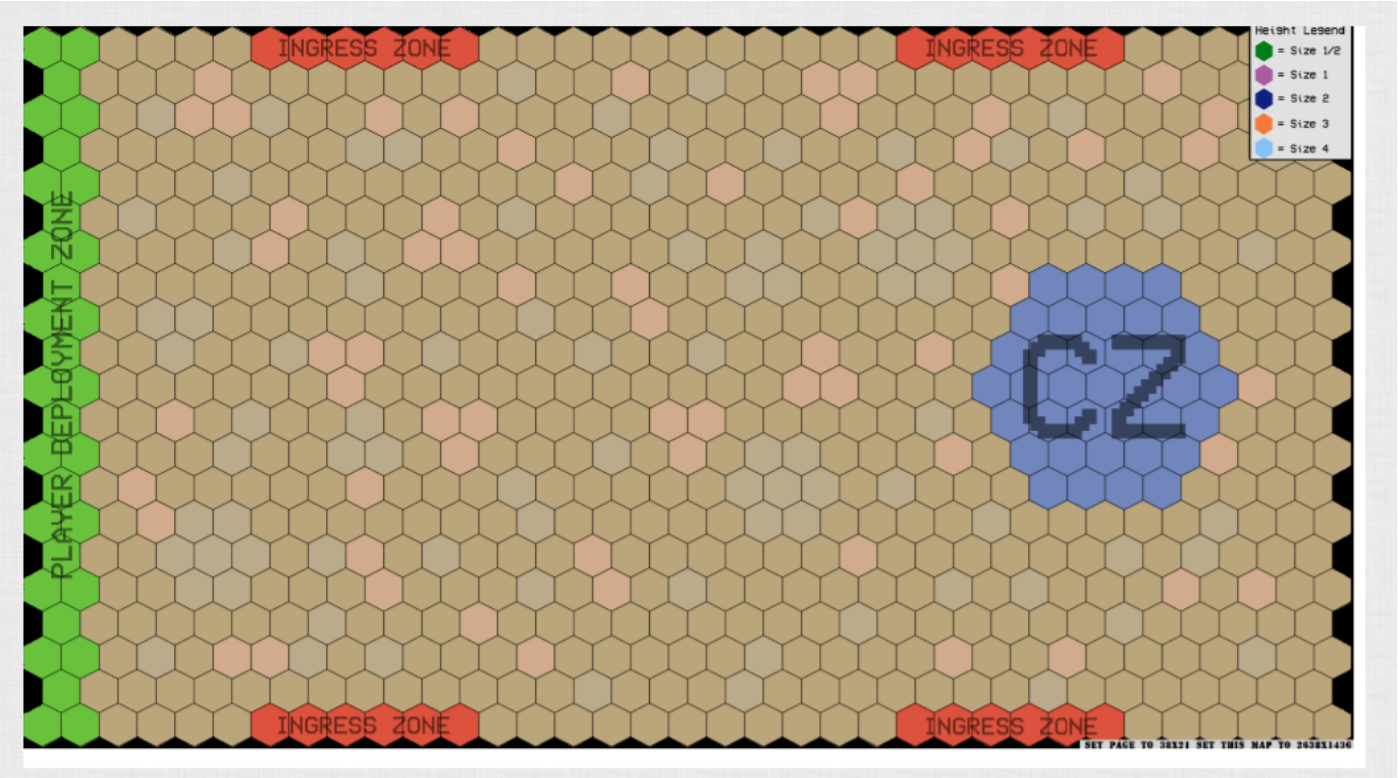


MAP SETUP

STEP 4: Set Dimensions to 2638x1436



STEP 5: Align the map to the grid, it will snap to the grid.



STEP 6: Go to the page's options again and lower the grid opacity all the way to 0. The maps come with their own grid, 2 grids look messy!

You are good to go to play Lancer! Well done!
